2023**

**Hyatt Regency Izmir Hotel  
IZMIR / TURKEY**

## **SCIENTIFIC PROGRAM**

Turkish Association of  
Pediatric Surgeons

## **Welcome Message**

Dear Colleagues and friends,

It gives us great pleasure to invite you to participate in the 30<sup>th</sup> International Meeting of the Pediatric Colorectal Club, which will take place at the Hyatt Regency Hotel in Izmir, Turkey from 4<sup>th</sup> to 6<sup>th</sup> June 2023.

Diseases of the colon and rectum in children such as anorectal malformations, Hirschsprung's disease, inflammatory bowel disease, idiopathic constipation and fecal incontinence present a special challenge to pediatric surgeons. Many of these diseases have a major impact on quality of life and warrant long-term follow-up and treatment into adulthood. In order to provide the best medical and surgical care to children with colorectal diseases, it is essential that we have the highest possible standards of education, training and research. The 30<sup>th</sup> International Meeting of the Pediatric Colorectal Club aims to provide up-to-date clinical and scientific information on all aspects of pediatric colorectal diseases and malformations to practicing pediatric surgeons, pediatric urologists, pediatricians, pediatric gastroenterologists, basic scientists, nurses and patient support groups.

Izmir is one of the world's ancient cities with a recorded history spanning over 8,500 years. After Istanbul and Ankara, it is the third largest city in Turkey, located at the Aegean coast, steeped in history, culture and religion, with numerous sightseeing treasures and excellent transport links. The rich heritage and its modern culture constitute Izmir's unique charm and character. The city's myriad cultural offerings, archaeological sites, huge variety of attractions, a superb venue directly located on the Aegean shores and Turkey's undoubted appeals make Izmir an ideal location for the 30<sup>th</sup> International Meeting of the Pediatric Colorectal Club.

We hope that many of you will be able to stay longer and participate in the 24<sup>th</sup> European Congress of Pediatric Surgery, which will also take in Izmir, Turkey from 7<sup>th</sup> to 10<sup>th</sup> June, 2023.
